

Loop Control Instructions

To repeat some parts of the program

for Loop

```
for(initialisation; condition; updation) {  
    //do something  
}
```

Special Things

- Increment Operator
- Decrement Operator
- Loop counter can be float
or even character
- Infinite Loop

while Loop

```
while(condition) {  
  
    //do something  
  
}
```

do while Loop

```
do {  
  
    //do something  
  
} while(condition);
```

break Statement

exit the loop

continue Statement

skip to next iteration

Nested Loops

```
for( .. ) {  
    for( .. ) {  
  
    }  
}
```
